## Independent Auditors' Review Report to the Members of Pakistan Kuwait Investment Company (Private) Limited

### *Introduction*

We have reviewed the accompanying condensed interim statement of financial position of **Pakistan Kuwait Investment Company (Private) Limited** ("the Company") as at June 30, 2016, and the related condensed interim profit and loss account, condensed interim statement of comprehensive income, condensed interim cash flow statement, condensed interim statement of changes in equity and notes to the accounts for the six-month period then ended (here-in-after referred to as the "interim financial information"). Management is responsible for the preparation and presentation of the condensed interim financial information in accordance with approved accounting standards as applicable in Pakistan for Interim Financial Reporting. Our responsibility is to express a conclusion on the condensed interim financial information based on our review.

### *Scope of Review*

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan for Interim Financial Reporting.

### *Other Matters*

The figures for the quarter ended June 30, 2016 in the condensed interim profit and loss account and condensed interim statement of comprehensive income have not been reviewed and we do not express a conclusion on them.

11. CONTINGENCIES AND COMMITMENTS			
11.1 Other contingencies			
<p>The Income Tax Department has amended the deemed assessment orders for the tax years from 2003 to 2015, raising a tax demand of Rs. 2,986 million, mainly due to additions in respect of allocation of expenses against dividend income subject to tax at reduced rate / Final Tax Regime and capital gains.</p> <p>In such orders, the taxation authority has not accepted the Company's contention on the matter of allocation of expenses on capital gains and dividend income. The total additions made in tax years 2003 to 2015 under this head amounts to Rs 6,672 million.</p> <p>In tax year 2003, the Appellate Tribunal Inland Revenue (ATIR) had directed the tax authorities for the allocation to be made taking into account the 'cost of investment' rather than 'gross turnover'. Subsequently, the action of the Taxation Officer in refusing to issue the appeal effect in view of the departmental appeal before the High Court was contested in appeal before the Commissioner Inland Revenue (Appeals) [CIR(A)] for application of section 124A of the Income Tax Ordinance, 2001 (Ordinance). The CIR(A) adjudged the matter in favour of the Company directing the Officer to give effect to the directions which have been maintained by the ATIR in the subsequent departmental appeal.</p> <p>Relying on the above decision of ATIR, the CIR(A) through orders dated September 23, 2011, November 30, 2012 and June 15, 2015 for tax years 2004 to 2007, tax year 2010 and tax years 2011 to 2013 respectively, directed for the application of provision of section 124A of the Ordinance. The action was, however, maintained by the CIR(A) in the tax years 2008 and 2009 and appeals are currently pending before the ATIR. The department has preferred appeals against the order of the CIR(A) in the years 2004 to 2007 and 2010 to 2013 which are currently pending before the ATIR.</p> <p>Appeal effect orders for the years 2003 to 2007 and 2010 have been issued. These are to attain finality once the departmental appeals before the ATIR / High Court as the case may be, are decided. However, in the recent order for tax year 2003, the Officer has not followed the directions of the CIR(A) and allocated expenses on the basis of turnover for which the Company is in the process of filing appeal before the CIR(A).</p> <p>Further, the Company had made representation before Federal Board of Revenue for necessary clarification and has also referred the above matter to Alternate Dispute Resolution Committee, a mechanism available to provide an opportunity to taxpayers for an easy and efficient resolution of disputes. The same is still pending.</p> <p>The Company has made provision of Rs. 1,276 million against the demand for the abovementioned years based on cost of investment. The management is confident that the ultimate outcome of the appeals would be in favor of the Company inter alia on the basis of the advice of the tax consultants and the relevant law and the facts.</p>

The fair value of financial assets and liabilities not carried at fair value are not significantly different from their carrying values since assets and liabilities are either short term in nature or in case of loans are frequently repriced.

Fair value is an amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences may arise between the carrying values and the fair values estimates.

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).
